

Wyland's "Kid's Murals"

Are unusual to the general secondary market inasmuch as they are mainly available at the Wyland Foundation's fundraisers, i.e. fairs, festivals, exhibits, concerts, wall mural painting and environmental related events. They are available at such functions for an outright sale price of \$50,000.00 or more. These murals are not easily acquired and the purposes for which they are created are exemplary.

This mural now hangs in the Children's Wing of Henry Ford Hospital, West Bloomfield, Michigan.
